**APPLY WITH KERRVILLE
POLICE DEPARTMENT
TODAY!!!**

We are looking for qualified applicants for Telecommunication Specialists aka Dispatchers!

Make a difference!

Be the calm voice in the dark

Most people have heard about the “thin red line” and the “thin blue line,” but what about the thinnest gold line in the middle? That thin gold line represents those who aren’t ever seen, but are mostly heard. That thin gold line stands for dispatchers, who act as “the golden glue that holds it all together” when it comes to receiving emergency calls and sending out first responders.

Have you ever been in traffic somewhere when a police car goes speeding by with lights flashing and sirens blaring? If you’re like most people, you’ve probably wondered where they were going. But have you ever wondered who sent them zipping down that highway in the first place? How did they know they were needed? A police dispatcher directed them. The job of a police dispatcher is often overlooked but very important role within the field of law enforcement. It is a great way to serve your community and help other people all while making a great wage and solid benefits!

Our dispatchers are responsible for answering 911 calls and helping people through their most difficult moments.

We take calls for service then send an appropriate response such as law enforcement, fire fighters, or an ambulance to help.

We are the first point of contact in any emergency

If you want to be a part of our #oneteam apply today on the City of Kerrville website kerrvilletx.gov
